

## **Brian Allen**

Brian Allen is the Project Management Director of Bison Renewable Energy.

Mr. Allen has more than 16 years of experience in project and operations management in information technology, call center development and construction management. Brian's experience has included project and operations work in the medical, logistics, e-commerce, telecommunication, and Information Technology sectors. His experience includes a position as a corporate Total Quality Management supervisor for a \$75 million organization. His improvement recommendations and leadership lead to an operational savings of \$2.4 million annually. Brian's project and operations management experience also includes management of a 35 member technical service team for the building, calibration, and operation of a digital wireless communications network for the city of San Antonio, Texas, the ninth largest city in the United States. Other experience includes project management of more than 70 telecommunications projects throughout North, South and Central America.

Brian came to Bison Energy from Hunt Power, an energy data management and conservation company where he was a project manager over the development of a next generation energy data collection system. Brian has a Master of Project Management and a Master of Business Administration degree from Keller Graduate School of Management of DeVry University. He is a veteran of the United States Air Force.
