

My Ag Roots

Do you have agricultural roots? It's a good bet you do. Use this thinking page and work with your parents to trace family roots. Write the occupation together with each name. When you're done, circle each ag-related job. Share your findings with your class. Even YOUR roots are in agriculture.

The diagram is a family tree shaped like an apple tree. At the top are four boxes labeled "GREAT GRANDFATHER". Below them are four boxes labeled "GREAT GRANDMOTHER". Below those are four boxes labeled "GRANDFATHER" and "GRANDMOTHER". In the center are two boxes labeled "FATHER" and "MOTHER". At the bottom center is a box labeled "YOU" with a star above it. The tree is decorated with many apples. A cartoon character of a smiling apple with a face and arms is at the base of the tree. A speech bubble from the character says: "Don't forget your aunts, uncles, cousins and other relatives too. Jot each name and occupation in an apple. Add more apples if you need them."
