

SAM & DANIELLE BENNETT

District 4 | Galva, IA

Sam, Danielle, and their 2 year-old son Harrison, farm on Sam's Family's Century Farm, as well as recently purchased land that has been in the family for over 138 years! On these 700 acres, they raise corn, soybeans, small grains, and alfalfa - both conventional and organic. The family also farms with Sam's family as part of a 2,000 acre row crop operation.

While Sam farms full time, Danielle serves as the naturalist for the Ida County Conservation Department. The Bennetts take pride in their conservation efforts. The family participates in farmer-led research with Practical Farmers of Iowa and often hosts field days on the farm. In 2020, they received the Iowa Farmer Environmental Leader Award.

Sam is also a 2018 graduate of the Ag Leaders Institute and has participated in many Farm Bureau trips and programs, including the DC Marketing Trip. He has served on various committees with Ida County Farm Bureau and is always eager to volunteer. The couple has attended the annual Young Farmer Conference since 2015.
