

# 2019 ANNUAL MEETING

PEOPLE. PROGRESS. PRIDE.

## bio:

Kate Edwards is an organic vegetable farmer in eastern Iowa. Kate is a strong believer that all farmers can work together for healthier soil and vibrant farm communities and has really enjoyed being on her local county Farm Bureau Board the last two years. Both sets of Kate's grandparents farmed, but due to the farm crisis, she did not grow up on a farm. When she started farming in 2010 she wanted to grow row crops, but by necessity chose vegetables because it required the smallest land base and input capital, both resources hard to find as a beginning farmer.
