

2019 ANNUAL MEETING

PEOPLE. PROGRESS. PRIDE.

bio:

Shawn Richmond is the Director of Environmental Services for the Iowa Nutrient Research & Education Council (INREC) where he coordinates environmental programs and services on projects including environmental progress measurement, technology development, and associated outreach and education efforts.

He started at INREC in April 2015, and prior to that worked as a senior environmental specialist at the Iowa Department of Agriculture and Land Stewardship (IDALS) for 13 years. His work at IDALS included managing the Iowa Conservation Reserve Enhancement Program, as well as work on the Iowa Nutrient Reduction Strategy, and Gulf of Mexico Hypoxia Task Force. He has a bachelor's degree in Environmental Science and master's degree in Water Resources, both from Iowa State University.
